

A Choose Your Own Adventure App

Visit #2 – Collect Narrative Feedback and Brainstorm

Purpose

The purpose of this visit is to collect feedback and to some extent, to manage expectations. What do your partner(s) like about the story you have developed so far? What would they like to see added in terms of narrative? How might the educational aspects of the story be worked into your app?

Evaluation Criteria

Category	Essential question	Not at all	In part	Fully
Thinking	Did you take careful notes during our second visit to help further develop the narrative of your group's story?			
Communication	Did you engage respectfully and fully with your partner group while at LDPS?			

Notes

Add notes regarding the further development of the narrative for your group's Choose Your Own Adventure app. What events do your clients want to see happening in the story? How might the educational aspects of your app work?
